

David Ballester

Fullerton, CA | (714)337-9564 | davidaballester@gmail.com | <https://www.linkedin.com/in/davidaballester/>

SUMMARY

Business Analytics and Statistics professional with experience transforming complex data into actionable insights that support operational performance, financial analysis, and business decision making. Skilled in data analysis, dashboard development, KPI reporting, SQL, and data visualization using Python, R, Tableau, and Excel. Experienced in collaborating with cross functional stakeholders through consulting projects with Oracle and NVIDIA, delivering analytical solutions that improved reporting, customer insights, and strategic decision making. Strong communicator with experience presenting findings to technical and non-technical audiences.

EDUCATION

California Polytechnic State University, San Luis Obispo

August 2025 – June 2026

Master of Science in Business Analytics

San Luis Obispo, California

- **3.97 GPA, 2026 Brett and Leslie Eldridge Award**
- **Relevant Coursework:** Strategic Marketing Analytics, Essential Statistics for Business Analytics, Career Readiness in Data Analytics, Econometrics and Data Analysis, Computing and Machine Learning for Business Analytics, Data Analytics and Mining for Business, Data Management for Business Analytics, Collaborative Industry Project

California Polytechnic State University, San Luis Obispo

September 2021 – June 2025

Bachelor of Science in Statistics, Actuarial Prep Minor

San Luis Obispo, California

- **3.5 Cumulative GPA, Dean's List Recipient**
- **Relevant Coursework:** Financial Accounting, Fundamentals of Corporate Finance, Fundamentals of Computer Science, Design and Analysis of Experiment, Statistical Computing with SAS, Statistical Computing with R, Statistical Communication

SKILLS

Technical Skills: SQL, Excel, Tableau, Power BI, Data Visualization, R, RStudio, Python, SAS, JMP, Powerpoint, Git, Github, AWS, Web Scraping

Analytical Skills: Statistical Modeling, Machine Learning, Budget Management, Critical Thinking, Data Analysis, Experimental Design, Data Mining

Soft Skills: Adaptability, Collaboration, Communication, Attention to Detail, Positive Attitude, Eager to Learn, Organization, Creativity, Initiative

ANALYTICAL & RESEARCH EXPERIENCE

Data Analytics Consultant | Fusion Data Intelligence (FDI) Capstone Project

January 2026 – March 2026

Oracle

- Analyzed customer usage and transaction data to uncover key drivers of churn across client segments
- Applied clustering and survival analysis techniques using Python and R to create personalized retention strategies
- Developed dashboards and delivered data driven insights in a formal presentation setting with Oracle Leadership present

Data Analytics Consultant | Capstone Project

January 2026 – March 2026

NVIDIA

- Analyzed large scale developer activity data in Python and R to identify patterns in engagement, customer segmentation, and behavioral trends
- Applied clustering techniques to show different developer archetypes and organizational level behavioral insights
- Built interactive dashboards for both developer and organization level analytics, allowing NVIDIA to track a developers lifecycle activity and engagement metrics
- Communicated data driven insights and visualizations in a formal presentation setting with NVIDIA Leadership present

Biostatistician Intern

June 2024 – March 2025

Luskin Orthopedic Institute

Los Angeles, California

- Collaborated with researchers and physicians from UCLA and USC on various research projects

- Focused on evaluating spine replacement devices, and played a key role in data collection and analysis
- Utilized data visualization, regressions, t-test, ANOVA, and Taguchi's method to conduct study design, data collection and analysis
- Tested five different devices to determine which attributes contributed to better patients' outcomes, such as less movement, reduced pain, and a lower likelihood of needing another replacement
- Measured various device attributes, helping to identify factors influencing stability and overall success
- Utilized statistical techniques and programming tools to interpret complex medical data

Budget Analyst

January 2017 - Present (Seasonal)

Pelayo LLC

Fullerton, California

- Maintain accurate financial records, recording income, expenses, and miscellaneous payments for an LLC company
- Contribute to the company's growth and financial decision-making on a semi-annual basis, evaluating earnings and identifying solutions to enhance profitability and address challenges, exemplified by the recent property acquisition in Whittier, California
- Improved expense tracking accuracy by implementing Excel based reporting, allowing for easy tracking of income and expenses

Effect of Median Age on Total Health Spending | R, RStudio, GitHub

March 2023

- Applied regression techniques to see how median age affects health spending for multiple countries around the World
- Code, graphs, and results can be found at <https://github.com/dle-79/stat331-final-project>

PUBLICATIONS AND PRESENTATIONS

Wahbeh JM, Ballester DA, Ebrahimzadeh E, Sangiorgio SN. **Design Factors Affecting the Fixation of Cervical Disc Replacements: A Biomechanical Analysis.** *Spine* (Phila Pa 1976). 2025 Aug 1;50(15):E299-E307. doi: 10.1097/BRS.0000000000005353. Epub 2025 Apr 8. PMID: 40195762.

Churn Rate Analysis and Actionable Insights (Oracle), March, 2026, California Polytechnic State Institute

Presented findings from a customer retention analysis, highlighting key churn drivers and identifying high-risk customer segments through behavioral profiling. Delivered strategic recommendations to Oracle leadership, including retention bundle offerings and AI-driven pricing initiatives designed to improve customer engagement and reduce churn.

Understanding the NVIDIA Developer Community, June, 2026, California Polytechnic State Institute

Presented insights on developer engagement, retention, and behavioral archetypes derived from large scale community data and predictive analytics. Demonstrated an interactive dashboard and provided recommendations for improving developer retention, onboarding pathways, and high value user identification to NVIDIA stakeholders.

PROFESSIONAL EXPERIENCE

Teaching and Learning Assistant

August 2025 – June 2026

California Polytechnic State Institute

San Luis Obispo, California

- Selected by faculty to lead tutoring sessions and support graduate students in coursework
- Organized professional development workshops for Business Analytics graduate students, fostering collaboration and applied learning

Crew Member

June 2020 – December 2023

McDonalds

Brea, California

- Collaborated effectively with team members in a professional environment, demonstrating strong communication skills and the ability to perform under pressure, ensuring efficient operations and customer satisfaction

Maintenance Technician

January 2016 – January 2020

Pelayo LLC

Fullerton, California

- Ensured well-maintained properties, demonstrating a strong work ethic, attention to detail, and problem-solving skills, enhancing the overall appeal and value of the properties

AWARDS AND HONORS

- **2026 Brett and Leslie Eldridge Award**
- **National Hispanic Merit**
- **SCP MSBA Merit**

SOCIETY MEMBERSHIP AND LEADERSHIP

- **Sigma Phi Epsilon**, California TAU Chapter
 - o Founder, Financial Executive, and Risk Management Chair
- Society for the Advancement of Chicanos and Native Americans in Science (**SACNAS**)
 - o Member
